LOCATION

Stevenage is currently undergoing major regeneration plans which include a £1bn redevelopment programme led by Stevenage Borough Council, delivering a mixed-use town to enhance Stevenage as a town where people will want to live, work and play.

There has been a recent new development within the town, a four storey Headquarters building purpose built of approximately 70,000 sq ft, offering offices and lab space, which will undoubtedly increase the footfall within the town which will be great for businesses.

There are also plans to provide further residential units above existing retail units such as Queensway (71 flats) and the former BHS site (250 flats), along with residential schemes on the former Matalan site (526 flats). 7600 homes are targeted by 2031, across the borough of Stevenage.

Park Place is located within the middle of the town centre, within a pleasant pedestrianised environment. There are plans for a new £45m Leisure Hub opposite at Town Centre Gardens, which will include a 10-lane swimming pool, gym and health and wellness spa which will attract visitors to the town.
